

CREATING SMART GOALS AT STACK

Why we create SMART goals at STACK: To drive business performance and improve employee and client satisfaction. Additionally, “People with [written and well-defined versus vague] goals are 10x more likely to succeed and to be happy at work.” (FAST COMPANY, Inc.).

What is a SMART goal? A goal-setting format STACK uses to create precise, well-defined goals, whereby progress is tracked, and measurable outcomes are realized, using these 5 criteria:

S

Specific

Clearly define what you want to achieve

M

Measurable

Track progress often & measure outcome

A

Attainable

Set a goal that is achievable

R

Relevant

Ensure the goal is realistic & aligns with department &/or STACK objectives

T

Time-bound

Set a deadline to achieve your goal
