

SOSPES Guide – My Safety Metrics Bar Chart

Go to <https://go.sospes.com/safety/home> (Bookmark this page)

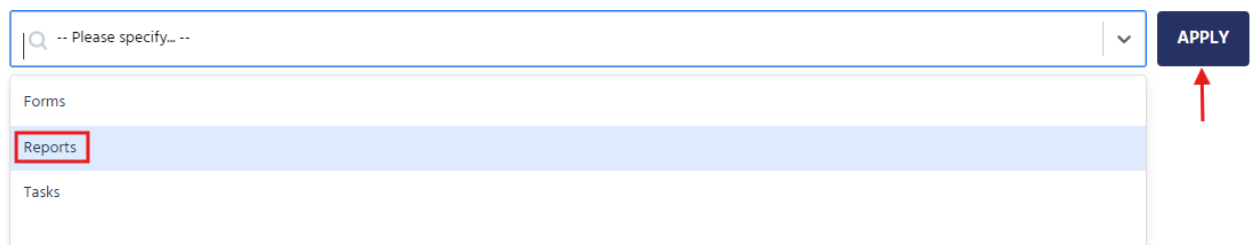

Click on 'Analytics'.

Click on 'Create Chart' in the 'My Charts' dropdown.

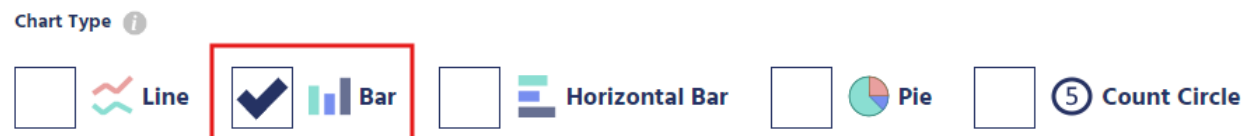

Click on 'Reports' in the dropdown then click 'Apply'.

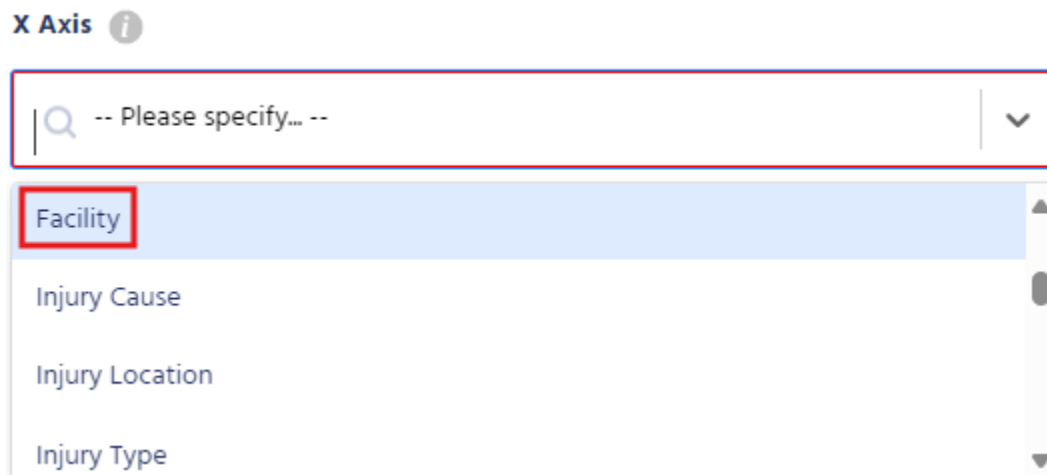

Name your chart: for this Guide we will create an observation count for the last 30 days.

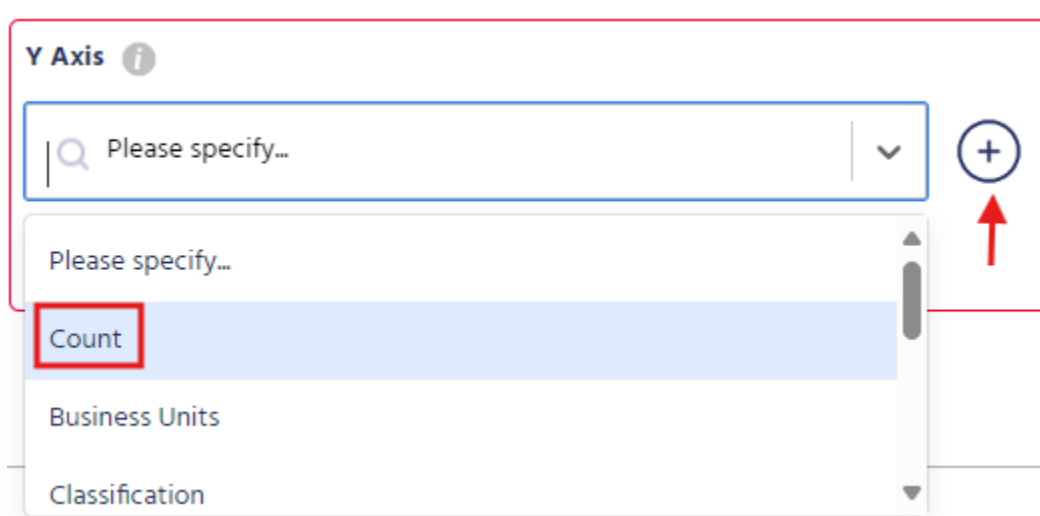

Select the type of Chart you would like displayed: for this Guide we will use 'Bar'.

For the X axis, select 'Facility' in the dropdown.

For the Y axis, select 'Count' in the dropdown then click the plus sign.

For Time Filter, select 'Submitted Date' and 'Last 30 Days' in the dropdowns.

For Data Filters, select the filter icon.

In the dropdown, you will select which locations you want added to the chart; for this example, we will add the sites POR03A, NVA05A, and CHI01B.

Be sure to click the plus sign *each time* a facility is selected.
